

Mud 12 Canal Restoration Project.

Dear Mud 12 Residents.

I will be giving an update on the Canal project at the Board Meeting next Monday. We have received initial costs estimates and this will be presented. This is for discussion and a decision is not required at this meeting.

We are planning to have the Corp of Engineers Project Manager present at the September Monthly Board Meeting. The Corp has asked for residents of Mud 12 to send any questions or concerns it has to Mud12@comcast.net and we will compile and send to the Corp project manager. These will be addressed at the meeting on Sept 21.

If you want to write a document and not email, please present this to Mud 12 we will scan and send to the Corp.

Again, please send emails to Mud 12 for your concerns and questions you have concerning the design of the Canal project so that may be given to the Corp of Engineers so they can address at the September 21 meeting.
